

Alcohol V – Ethanol – Water 2021-07 **1.5**

For quality monitoring of quantitative measurements by enzymatic method (ADH) and gas chromatography (GC)

Medidrug® **Ethanol W**
 Ready-to-use liquid aqueous standards for calibration of ethanol determination. The indicated target values have been verified by independent accredited laboratories.

New packages including 10 vials with 1,5 mL

New price (for 10 vials with 3,0 mL) → see back / price list

The controls Medidrug Ethanol W 130 and Medidrug Ethanol W 150 (order information **20130 / 20150 / 20131 / 20151**) contain ampoules with **1,1 mL**.

 	The provided mixture of the controls and their respective analyte concentrations are for overview purposes only and may differ from the current available batches. For the internal quality control, only the designated specification of the respective batch of the information leaflet is valid. LOT Product has been produced especially for an external quality control (proficiency testing). The catalogue code **REF** refers to a singular lot (batch). After expiry of the validity or being sold out it is no longer available. If possible new lots with similar compositions of components will be offered with a different catalogue code.
